

The Journey

We grew up amish, raised our children amish. We owned a carpentry business and were just busy living life, but spiritually dead. We thought we were doing what we were supposed to (follow our forefathers) so we could have hope to get to heaven one day.

When I (RAY) was 48 years old I came to a saving knowledge of JESUS CHRIST and awhile later my wife Martha also came to know the LORD. We were attacked one night (from our children and the amish ministry) and we ended up having everything taken away from us including our three minor children that were still living at home. We also had to shut down our business, etc.

We are now starting over in our life at 50 years old and we really love the LORD JESUS CHRIST!! This website is just a place to share some of our thoughts as we continue our journey!
